Professional Experience

Associate Consultant (Joining June 2026) - *Oracle Financial Services Software (OFSS) | Bengaluru*

- Selected for Associate Consultant role; will work on requirement analysis, system configuration, data validation, and client communication.
- Preparing through structured learning in SQL, Power BI, Cloud computing, and business analysis to excel from day one.

Major Projects

Digital Transformation Case Study– *Retail Business*
Technologies: SQL, Power BI, Process Mapping
- Analyzed retail operations and identified key bottlenecks.
- Designed As-Is and To-Be process maps.
- Integrated the solution with Redshift and Excel-based reporting for seamless data accessibility and visualization.
- Built interactive Power BI dashboards for sales, revenue and product trends.
- Proposed digital roadmap with automation & cloud adoption; potential 20–25% manual effort reduction.

Sales Analytics Dashboard– *E-commerce*

Technologies: SQL, Power BI, Excel

- Developed KPI-driven dashboards analyzing revenue, profit, and product performance.
- Applied SQL queries for advanced insights and segmentation.
- Automated reports to improve delivery timelines and reduce manual work.

Cloud Migration Proposal – *AWS/Azure*

Technologies: AWS Cloud, Azure Fundamentals

- Prepared a cloud migration plan for a simulated on-premise system.
- Estimated cost benefits and ROI, highlighting scalability and reliability improvements.
- Delivered consultant-style recommendation documents for digital transformation initiatives.

ERP & MSS Software Internship– *Production Department*

Technologies: SQL, Oracle 11g

- Handled pouring report rectification and correction in ERP and MSS software.
- Applied SQL queries and Oracle 11g to validate production data.
- Gained hands-on experience with ERP processes and reporting workflows.

Achievements & Awards

- Recognized for proactive consulting-style projects and process improvement initiatives.
- Successfully built automated reporting dashboards and business insights tools.
